

Measuring for the Central Line Wrap

Measure around the chest wherever the exit site is. This is where the wrap will be worn.

Exit Site Higher on Chest than Armpits

Measure Directly under Arms

Exit Site at Mid-Chest Height

Measure Directly over Exit Site

Exit Site at Lower-Chest Height

Measure Directly over Exit Site

If the exit site is **higher on the chest than the armpits**, take your measurement directly under the arms.

If the exit site is at **mid-chest height**, take the measurement directly over the exit site.

If the exit site is **lower on the chest**, take the measurement directly over the exit site.
